Phase 2 comprises the redevelopment of the Tobacco Warehouse which is now transformed and complete into two- and three-bedroom, duplex, dual aspect, loft-style apartments and Penthouses overlooking the historic waterfront. The 14-storey Tobacco Warehouse was at the time of its construction in 1901, reported to be the world's largest building with a floor-area of approx. 15,000 sq.m. (1,614,586 sq.ft.).
